

# Lovedrug, Salt Of The Earth

Oh like the salt of the earth  
Each correction makes us stronger  
Absconder in happiness, yeah  
Voyage up my river  
Full of tears it's yerking  
Lookout now, doctor's unleashing:  
All this dangerous, this is dangerous  
I can't hide your danger eye i can't hide  
Your death selection  
One day i would've fallen so in love  
One day i would've painted reds and greens of one who let me live long enough  
But there's suits in love with their own poises  
Hypocrites with no more voices  
Corporate cowards with no more choices  
This is dangerous, this is dangerous  
I can't hide your danger eye i can't hide  
Your death selection  
All is lost for us if heaven  
All is lost for us if heaven fails  
All is, all is, all is..
