

# Loverboy, Everybodys Working For The Weekend

Does anybody out there ever want to stand up and shout it out  
Tired of going nowhere fast, gotta turn your world about  
You know you have to keep on tryin', 'cause sooner or later  
You get what you want, show 'em what you're made of  
Oh, it's just a matter of time, so

Chorus:

Tell me can you feel it, can you touch it  
If you feel it in the palm of your hand, don't let go  
Ain't it funny how the grass looks greener on the other side of town  
Don't you ever get tired of feelin' like the whole world is bringing you down  
Now's the time to get things movin', follow what you're feelin'  
Prove that you can do it, show what you believe in  
Oh, it's just a matter of time

chorus repeats 2x

(Solo)

I know where you can get it, if anybody wants it  
I know it made you feel so right  
All you gotta do is stand up and be counted  
Show me that you're out there tonight  
Can you feel it, can you touch it  
If you feel it in the palm of your hand, don't let go  
Come on, can you feel it, can you touch it  
If you feel it in the palm of your hand, don't let go  
Tell me, can you feel it, can you touch it  
If you feel it in the palm of your hand, baby, don't let go  
Don't let go, don't let go, don't let go  
If you feel it in the palm of your hand...
