

# Loverboy, Gangs In The Street

Put your hands in the air  
You better take care  
Your MONEY or your life  
Don't think twice  
Gonna get what they need  
It aint nothing but GREED  
Better watch what you do  
Or you'll know that your through  
What would you do  
If they were looking at you  
What would you say  
If they were walking your way

Looks like theres gonna be a showdown  
You better not slow down  
Better watch what you say (yeah)  
'Cuz you know they're not playin'  
Don't you look over there  
You better not stare  
Get down on your knees  
You beggin' them please  
(ohh)

(chorus)  
Gangs in the street  
Lookin for you  
Looking for me  
Gangs in the street  
Ready for you  
And they're ready for me

(chorus x2)

Put your hands in the air  
You better take care  
Your MONEY or your life  
Don't think twice  
Better watch what you say  
Or you know that you'll pay  
Better watch what you do  
Or you know that your through

Gangs in the street  
Looking for you  
Gangs in the street  
Looking for me  
Gangs in the street  
Hey, you looking for me  
Gangs in the street  
We're gonna see
