

# Low Hum, Nebraska

Selfishly

I expected you to never go  
Harder now; I've got no control  
Nobody  
Got the love like you gave to me  
Never thought I'd see you leave

It's an emptiness I can't hide  
A feeling not to be denied  
But I know I know I know I know  
We'll be together someday  
And I could sense you waited for me  
When I pictured you in that dream  
That's how I know I know I know I know I know  
We'll be together someday

Honestly

Never thought this  
would drag me down  
Memories  
Keep on echoing through my mind  
Hope they never go

It's an emptiness I can't hide  
A feeling not to be denied  
But I know I know I know I know  
We'll be together someday  
And I could sense you waited for me  
When I pictured you in that dream  
That's how I know I know I know I know I know  
We'll be together someday
