

LP, Long Way To Go To Die

Whistle gone
We're moving on
And our only rival
Are tears

Send my things
Take back my ring
Now we've finally realized
Our fears

It's just a long, long way to go to die
It's a long, long way to go to die

5 years by stitch in time
Patching up in life by the seams

It won't break /2x
I just fake it all and believe

It's a long way to go to die
It's a long way to go to die
And I keep rolling on
Missing you from dusk to dawn

Happiness don't rescue me
I barely know you can't see I'm trying
Trying to block you out
Halleluiah glad I knew you
Take me now
Take me into town
