

# LP, One Last Time

Another verse  
Another search for something holy  
Another Chance to make it right  
Oh when it's young  
And it's fun  
There's nothing lost  
Nothing Wonder  
No consequences inside  
And though it all only feel darkness  
When the light doesn't shine on your side  
You were the poet, i was the poem  
But when you're mine  
When you're your own  
Not when we're fighting for our lives  
It doesn't matter we survived

But i cpould have on elast time with you  
I imagine all the things we would do  
Love is in the words unspoken  
All these one bits are golden  
Forever is mine with you

I got the pase if nothing last  
Why don't you show me?  
But i am afraid to scare myself  
Cause when there's ;pve  
There is loss  
And they hang on the cross  
With another tale to tell  
And more wishes for the well

But i cpould have on elast time with you  
I imagine all the things we would do  
Love is in the words unspoken  
All these one bits are golden  
Forever is mine with you

But i cpould have on elast time with you  
I imagine all the things we would do  
Love is in the words unspoken  
All these one bits are golden  
Forever is mine with you

And though it'll only feels like darkness  
Till somebody turns on the light  
I'd leave it all once again  
With unarmed  
Till the end  
And i'd pay the highest price  
To hold you one last time
