

# LSD (Sia, Labrinth & Diplo), No New Friends

You the queen  
You're the king  
We got out aces out  
You the queen  
You're the king  
We got out aces out  
Roll the dice on tonight go and roll em out  
You give me more than enough to go smile about

I got all I need in a world of doubt  
we got our champagne dreams  
in an endless drought  
we are the kings and queens seeking our aces out  
we got all we need  
no new friends now

no new friends  
no new friends  
no new friends  
no new friends

hey follow me  
I'll follow you  
I ain;t foldin' now  
hey hlla you  
I ain't holdin' out

Roll the dice on tonight go and roll em out  
You give me more than enough to go smile about

Coz I got all I need in a world of doubt  
we got our champagne dreams  
in an endless drought  
we are the kings and queens seeking our aces out  
we got all we need  
no new friends now

no new friends  
no new friends  
no new friends  
no new friends

when the sun goes down  
and when it comes back up  
we've got our aces out  
we've got our aces out

Coz I got all I need in a world of doubt  
we got our champagne dreams  
in an endless drought  
we are the kings and queens seeking our aces out  
we got all we need  
no new friends now

no new friends  
no new friends  
no new friends  
no new friends
