

Luba, No More Words

You gave me your word
But now that your word
Doesn't mean that much to me
And in the silence I can hear
The truth ring loud and clear
I never meant that much to you

and it seems, a whisper to a scream
was all that we knew

before the talk is through
I'm telling you

No more words tonight
No more words
I don't ever wanna hear you say you love me one more time.
No more words tonight
No more words
I'll forever keep the silence
and you can keep your lies

You tried to throw me one last line
to throw me one last time
But now I guess I'm wise to you
And vows spoken in the night
are broken in the light
would you recite I have heard before
so say no more...

CHORUS - No more words tonight...

Dialogue is over
I see your lips move but they don't make a sound
You've lost what I have found
A voice inside of me that sets me free

No more words tonight
2 X Chorus and fade out
