

# Luba, 'take It Like A Woman'

words on my lips  
I try to fight them  
bitter and burning  
one spark can ignite them  
throws back his head  
and lights up a cigarette  
playing fire with fire  
I blaze into someone else  
as I say  
I don't mind  
been wasting time  
I've got better things  
to do with my life  
no battle cries  
be civilized  
'cause this time I'm gonna take it like  
I'm gonna take it like a woman  
why don't you take it like a man  
I'm not gonna cry, Oh! no  
just make you understand  
I can take it like a woman  
I've taken all I can  
I'm not gonna die, Oh! no  
I gonna take it like a woman  
slap on the wrist  
no further indictment  
this sister is learning  
her poetic licence  
throws back her head  
and lights up a cigarette  
playing fire against  
higher resistance  
she's someone else  
I don't mind  
been wasting time  
I've got better things  
to do with my love  
no battle cries  
be civilized  
this time I'm gonna take it like  
I'm gonna take it like a woman  
repeat chorus
