

Lucerin Blue, Find Me

Are we just wasting time?
Or should we give up and die?
Are we a voice without words?
The limit always seems to be the sky
All the bodies shut their minds

Let me say won't you please find me

No we're not wasting time
And no we shouldn't give up and die
You gave us a voice and we've got words
It's time to rise up against the tide of words that kill
Delete the lies
See his eyes, not compromise
