

Lucero, Diamond State Heartbreak

I don't want to see you crying like that
Not when you're the one who broke my heart
I wish i didn't want you
Didn't want you back
But you were my biggest love so far
And you broke my heart
You broke my heart
I tried not to call you
I wondered where you are
I still glance your eyes up in the stars
But now when i see you
I feel like a fool
I wish you hadn't seen me fall so hard
I fell like a star
And you broke my heart
I fell like a star
And you broke my heart
You broke my heart
