Lucero, Is That You I Been Kissing?

We been kissing for hours before I felt your lips Thought I was dreaming about her til I felt your fingertips Well hello there, how did you end up here Is that you I been kissing? Is that you holding me near? Now I didn't catch on quite as quick as I should I'm not sure if it's real but it sure is good If you really kiss me, kiss me again And if I'm only dreaming, don't let it end I'll hold on tightly so you don't slip away I'm not sure if youre real, but I sure hope you stay Is that you I been kissing? Is that your hand in mine? I didn't see it coming but I do like it fine I just hope when I wake up that you're still by my side Will your kisses fade with the morning light? I hope when I wake up that you're still by my side Then I'll kiss you some more in the broad daylight
