

# Lucero, Nights Like These

It's nights like these.  
They make em sleep all day.  
It's nights like these  
that make you feel so far away.  
It's nights like these  
nothing is for sure.  
It's nights like these  
I dont want you anymore.  
Now I've only got  
this one wish,  
that I was good enough to make you forget  
the only boy who ever broke your heart,  
cause nights like these tear me apart.  
It's nights like these  
The sad songs dont help.  
It's nights like these  
your hearts with someone else.  
It's nights like these  
I feel like givin up.  
It's nights like these  
I dont seem to care as much.  
Now I've only got this one wish,  
that I was good enough to make you forget  
the only boy who ever broke your heart,  
cause nights like these tear me apart.  
Beer tastes like blood.  
My mouth is numb,  
and i cant make the words i need to say.  
She had a weakness for writers, and I,  
I was never that good at words anyways.  
I've only got this one wish  
I wish I was good enough to make you forget  
the only boy who ever broke your heart,  
cause nights like these tear me apart.
