

# Luciano, Over The Hills

Where must I find a place to live, in this jungle created by mankind  
where will I lay my weary head, tell me how I'll find a peace of mind  
some say earth a run red  
man and man must insure dem head  
but I feel like running instead  
and find me a place I'll be free

"[Chorus:]"

I will take me over hills and tha valley  
yes I'll find me a place I'll be free  
yes I'll take me far away from the city  
mother nature is calling me

"[Verse 2:]"

So many year in starvation and I cant find a thing to nyam  
sometimes I contemplate and wonder what is wrong  
though I try so hard I just cant get along  
man to man is unjust  
and I dont know who to trust  
still I say living is a must  
so I'll find me a place where I'll be free

"[Chorus]"

"[Verse 3:]"

Doing my best to serve mankind, to liberate the captivated mind  
still they don't seem to hear my call, so I won't linger and perish with them at all  
some say earth a run red  
man and man must insure them head  
but I feel like running instead  
and find me a place I'll be free

"[Chorus]"
