

# Lucie Silvas, The Same Side

It's such a beautiful day to be feeling like this  
Don't you think about anything that might make you miss  
That ray of light, something that might drag you down

If I could give you just a blue sky, get you out of the dark  
Cause you've been going round in circles and you never stop  
To look around  
You're losing out on the best part

I find myself turning the other way when I don't understand  
I can't help feeling I'm the one to blame for all your pain

This is our time to fly  
And I don't want to leave you behind  
It should be you and I on the same side

You don't know what you have til the moment has gone  
Catch it while you can cause this ride won't last very long  
You look so bright  
You look so bright through my eyes

I want you to know your place is here with me  
If that's what you want

This is our time to fly  
And I don't want to leave you behind  
It should be you and I on the same side

Have I got you too close?  
Do you really want to let go?  
Cause I love you more than you'll ever know  
But if it's hurting you, what can I do?

From now on this is our time to fly  
And I don't want to leave you behind  
It should be you and I on the same side

This is our chance to try  
Both of us under one sky  
It should be you and I on the same side
