

# Lucinda Williams, Rolling Along

Well, I'm rollin' along the highway  
Livin' the life I'm used to  
I thought about you all the way from  
Little Rock to Houston

And now I can't seem to get you off my mind  
But your tied to somebody else  
I think about you all the time  
And I just can't help myself

Sometimes I don't know right from wrong  
I find it easy to fall  
It's hard when I been up all night long  
That's when I want you most of all

Well, I'd love to see your smilin' face  
If I could take just one last look  
But you left me just one last trace  
On the pages of your book

But words can't hold me every night  
And words can't kiss me in the mornin'  
Look out honey I got love in my heart  
And it's growin' and it's burnin'

Sometimes I don't know right from wrong  
I find it easy to fall  
It's hard when I been up all night long  
That's when I want you most of all

Well, I'm rollin' along the highway  
Livin' the life I'm used to  
I thought about you all the way from  
Little Rock to Houston

And now I can't seem to get you off my mind  
But your tied to somebody else  
I think about you all the time  
And I just can't help myself

Sometimes I don't know right from wrong  
I find it easy to fall  
It's hard when I been up all night long  
That's when I want you most of all

Sometimes I don't know right from wrong  
I find it easy to fall  
It's hard when I been up all night long  
That's when I want you most of all

That's when I want you most of all
