

Lucky 7, Reality

Jumped in a gang at age 15
And shot while playing with his brother
Who's going to tell his mother
Little Jean never reached 18
A bottle of pills found by her bed
cuz No one cares that's all she ever said
She said to me reality, reality
and I knew a girl that had to quit high school
And get a job to support her baby
Still her parents call her lazy
And Tommy's dad gets drunk and mad
Takes a bat across his head
A perfect picture of a modern family
Is that way it should be reality
Too fast to live too young to die
But it makes me sick when I think why
It's too much for me reality
