

Lucky 7, We Were Young

17 and we were
Strung out on nothing yet
Cuz we were young
Sitting around and getting high
In back of my 55
When we were young
If I could only be with her right now
She'd know exactly how
I feel about the two of us
Running around the streets
And raising hell
You know exactly who I am
And for her I'd do it all again
In her eyes I tried to be a star
Like a dog in the street
Chasing after every car
Toe to toe until the final round
You know exactly who I am
And I'd do it all again

All my life, when in your arms
all of my life i'm waiting for you
