

# Lucky Boys Confusion, Broken

Lookin' down from the skybox  
Watching the whole block  
Throw em in the air  
And you hate me now  
Not getting your truce  
Gettin' loose  
Like the noose on my na na na na neck  
I'm bringing the next suburban curse  
If i make it, baby, you can drive my hearse  
We're getting close, man, toe to to, man  
Here we go

(chorus)  
Here we go  
Never gonna see me broken  
Here we go  
They're never gonna see me broken  
Here we go  
Gonna keep my eyes open  
So tell me who do you think you're defeating?

Looking out from the cell block  
Watching the door lock  
Throw 'em in the air  
Cause i hate you now  
Expect nothing less  
Just confess  
You cut me off at my na na na na neck  
No, I won't beg  
I'm older now  
Won't sit here, never making a sound  
We're getting close, toe to toe  
Here we go

(chorus)

(bridge)  
not broken (not broken)  
not broken (not broken)  
not broken (not broken)  
not broken (not broken)

Lookin down from the skybox  
Watching the whole block  
Throw 'em in the air  
And you hate me now  
Not getting your truce  
Gettin' loose  
Like the noose on my na na na na neck  
I'm bringing the next suburban curse  
If i make it, baby, you can drive my hearse  
We're getting close, toe to toe  
Here we go

Here we go  
Never gonna see me broken  
Here we go  
Never gonna see me broken  
Here we go  
Gonna keep my eyes open  
Here we go  
Gonna stay strong I've spoken  
Here we go  
Never gonna see me broken

Here we go  
Never gonna see me broken  
Here we go  
Gonna keep my eyes open  
So tell me who do you think you're defeating?

Here we go  
Never gonna see me broken  
Here we go  
They're never gonna see me broken  
Here we go  
Gonna keep my eyes open  
So tell me who do you think you're defeating?  
Tell me who do you think you're defeating  
'till you eat out your heart still beating

Who do you think you're defeating?
