

# Lucky Boys Confusion, Closer To Our Graves

The world is blocked out in the bedroom  
The radio won't let her down  
Every note is a reminder  
Another failure is born  
Thirty miles outside Chicago  
Kids know what's really going on  
Still this gravel highway makes a statement  
We're another town gone wrong

Chorus:

Moving out and moving on  
You used to look like me  
Moving out and moving on forever  
And this autumn air reminds  
How things all slowly unwind  
Changing times have been unkind to you  
As these days they slip away  
We grow closer to our graves  
Had the best time of my life without you

It's three months since I've seen Chicago  
Now the buildings aren't so tall  
I found our initials in the pavement  
Just another dream gone wrong

Chorus

I bet it's simpler today  
Throwing everything away  
But the memory remains forever  
And this autumn air reminds  
How things all slowly unwind  
Changing times have been unkind to you  
As these days they slip away  
We grow closer to our graves  
Had the best time of my life without you
