

Lucky Boys Confusion, You Weren't There

I don't need your advice
I am the device
That you are living through

How long can this last
It's all in the past
And I am living proof

Chorus
You gave it away, Maybe I'm not old enough
You gave it away Maybe I wasn't cool enough
You gave it away Maybe you weren't there enough
There enough
Fuck it, come on

The greatest device
Branches collide
The overcast agrees

The rotten fruit
That you prosecute is leaving the family tree

Chorus

You plant the seed
Then you take control
Your grip has taken its toll

Chorus
