

Lucky Dube, Good Girl

When you were a little girl
I had dreams and I had plans for you
As a single father I knew
There was gonna be turbulence
Along the way
I did not know that so soon
I'd have to stand on the side
Watch you go through life
Without my guidance you see
I wanted to be there when you cry
I wanted to be there when you smile
I wanted to be there when you play
I wanted to be there all your life
I would say it's wrong
She'd say it's right
Words got spoken since
I live in a glass house
I didn't want no stones to be thrown
I didn't want no blows to be thrown
But I would hate to see my...

Chorus:
Good girl go bad
Good girl go bad

The games we played
The rhymes you taught me
Everything we did together
Those were the best days of my life
I will always remember
The little girl you were once
I wanted to be there when you cry
I wanted to be there when you smile
I wanted to be there when you play
I wanted to be there all your life
I would say it's right
She'd say it's wrong
I would say it's wrong
She'd say it's right
Words got spoken since
I live in a glass house
I didn't want no stones to be thrown
I didn't want no blows to be thrown
But I would hate to see my...

Chorus:
Good girl go bad
Good girl go bad
