

# Lucky Dube, Hero

Hero

Do you see the smiles on their faces  
after you have done what you do best  
do you see satisfaction on their faces  
after you have blessed them with your gift  
you don't think it's much  
but to them it means the world  
they wake up in the morning and wish you were there  
don't have to lie to gain their trust  
you have never won a Nobel prize  
they have never seen you on the TV  
your little contribution makes their lives a little bit better every day

chorus

you're a hero, you're a hero

big it up, big it up

for the fireman

big it up, big it up

for the street cleaners

big it up for the man and the woman who take care of abandoned children

big it up, big it up

for the grandmothers

who are left to take care of the children

big it up, big it up Wo!!
