

Lucky Dube, Money Money Money

Don' t tell me love makes the world go round
That is how it used to be
So many years ago yeah
These days we' re living in
Everything needs a dollar
These days we' re living in
Everything needs some money
You can' t get no love without the dollar
You can' t get no justice without the dollar
So everything is.....

Chorus:
Money money money

Judge dread I know I' ve done something wrong here
And today you' re here
To put me away forever
But before you bring that hammer down
Look what I have in my hand
Yeah, the wheels of justice
They turn so slow
But with this we can make them turn faster
Than a rocket in my favour
Doesn' t matter what they say
I' ve done here today
Just look the other way
Like you always do
When you see.....

Chorus till fade
