

Lucky Dube, You Know (Where To Find Me)

There is not reason
To cry for you now
I need you
When I was a little boy
But now I' m on my own
I tried to call you many times
Every time I tried in vain

Chorus:
You know where to find me
When you wanna see me/talk to me

Tears could not bring you back
I' ve told myself I' m an orphan
The only consolation I had was
I' m not the only one

Chorus:
You know where to find me
When you wanna see me/talk to me

Everywhere you' ve been
You' d leave women crying after you
I have brothers somewhere
In this world
But I don' t them
I have sisters somewhere
In this world
But I don' t them

Chorus till fade
