

# Lucky Soul, Struck Dumb

Shady, shameless and hurtful  
The bitterest cream makes the best cocktail curdle and  
Undream all that you long for  
To throw it all down and retreat into a corner and cry

I want you so bad that it hurts  
I want you so bad that it burns  
Right through forever  
Struck Dumb, dum-dum-di-do oh-woa-a-wo  
Struck Dumb, dum-dum-di-do oh-woa

Baby, I'll not desert you  
When Carrion crows argue envy's a virtue they  
Bleed green, don't let your guard down  
The magic don't touch when you curl into a small ball and cry

I want you so bad that it hurts  
I want you so bad that it burns  
Right through forever  
Struck Dumb, dum-dum-di-do oh-woa-a-wo  
Struck Dumb, dum-dum-di-do oh-woa-a-wo

Lately, silent survival  
Has brilliant thoughts turning grey on arrival  
Like old gum, stretched out and worthless  
A literate thirst is a hearse when you can't say the lines

I want you so bad that it hurts  
I want you so bad that it burns  
Right through forever  
Struck Dumb, dum-dum-di-do oh-woa-a-wo  
Struck Dumb, dum-dum-di-do oh-woa-a-wo
