

Lucy Street, Lucy Street

If he told me in a letter
I could read between the lines
and if he whispered softly on the phone
I could hear it in his voice
But he won't tell me nothing
that i allready know
and i really need that something
boy i wish that he would show

Chorus:

If he loves me loves me not
I got to know
beacuse I need my baby
loves me loves me not, I got to know
beacuse i need my baby tonight

we go round andd round in circles
only wasting precious time
If he only he would tell the truth
instead of tearin' up my heart
But he wont't tell me nothing
and boy I wish that he would show

Chorus:

If he loves me loves me not
I got to know
beacuse I need my baby
loves me loves me not, I got to know
beacuse i need my baby tonight

Is this just a big illusion
that makes me fall into confusion
I got to know

Chorus:

If he loves me loves me not
I got to know
beacuse I need my baby
loves me loves me not, I got to know
beacuse i need my baby tonight
