

Lucy Walsh, Modern Lover

Dreams

Are all I have to get me through
Cuz all this time away from you
You, know its not working anymore
Wait you know I didn't hesitate
Its just a little too late
You know its not working anymore
I'm 21st century lover
You're convinced we need each other
But I don't belong just to you
21st century lover
I can't promise you tomorrow
But I'm here with you tonight
You

There's a few things you didn't know
You tell me stay and then I go
You know its not worth is anymore
You know I wont lay here anymore
It's just so hard to the head
With someone sleeping in my bed
Its just so hard to the head
You know I can't stay here anymore
21st century lover
You're convinced we need each other
But I don't belong just to you
21st century lover
I can't promise you tomorrow
But I'm here with you tonight
(5,6,7,8)

I need some empty space
But I don't want to
Oh, but I need to
I'm gonna leave some empty space
But I don't want to
Oh but I don't need you any more
(Oh)

I'm a 21st century lover
You're convinced we need each other
But I don't belong just to you
21st century lover
I can't promise you tomorrow
But I'm here with you tonight
