

# Lucy Woodward, Done (Cd Version)

Done

I wanna let you know  
While I'm still standing here  
I'm not hopeless but  
I can't forget about it  
No matter where I go  
I'm gonna take it  
You're never gonna see me lost or lonely

There are so many things  
I never get to say  
But I know you don't care  
Think you can live without it  
I bruise so easily  
But it comes to back me  
Remembering the words of what you told me  
Thinking you could actually control me

You took what you needed  
I am still breathing  
I am still feeling the warmth of the sun  
I'm not gonna fade away this time  
You know I gotta tell you when you do what you do  
I'm not done

You made me stronger than  
Than I'm supposed to be  
My heart is a light that's dependent on me  
You're such a nowhere man  
Who'd never understand  
And from the very moment that you hurt me  
I realize you really don't deserve me

You took what you needed  
I am still breathing  
I am still feeling the warmth of the sun  
I'm not gonna fade away this time  
You know I gotta tell you when you do what you do  
I'm not done

What you call love is something else  
If you just want it for yourself  
Oh no

Remembering the words of what you told me  
And thinking you could actually control me

You took what you needed  
I am still breathing  
I am still feeling the warmth of the sun  
I'm not gonna fade away this time  
You know I gotta tell you when you do what you do, oh  
You took what you needed  
I am still breathing,  
I am still feeling the warmth of the sun  
I'm not gonna fade away this time

[3x:]  
You know I gotta tell you when you do what you do, oh

I'm not done, no no  
Cause I still feel the warmth of the sun.
