

Lucy Woodward, Gettin' It On

come and pull up a chair - i want you facin me
you're a long way from home now
you got your hand on my heart and it's pumpin to somethin stronger
can you feel it?

and it's me who will kick it and let it slide
what i need is to hit it

i can't let this pass me by

[chorus]

we both keep playin where we don't belong
cuz every time you keep turnin me on
we both believe what we want to
but way down deep we've known it all along
so we just keep on gettin it on
we're hangin out - i wanna play
and i'm goin crazy

cuz i'm hangin on and i can't wait for you

i wanna rock you baby...

and it's me who will keep it bottled up inside

i try to pretend but i can't help but feelin this vibe...

[chorus]

we both keep playin where we don't belong
cuz every time you keep turnin me on
we both believe what we want to
but way down deep we've known it all along
so we just keep on gettin it on
yeah we just keep on gettin it on
so we just keep on gettin it on, on, on.. yeah...
i'm slippin down and i'm sinkin fast
but i like it, i like it, i like it...

[chorus]

we both keep playin where we don't belong
cuz every time you keep on turnin me on
we both believe what we need to
but way down deep oh no no oh oh...

[chorus]

we both keep playin where we don't belong
cuz every time you keep on turnin me on
we both believe what we want to
but way down deep we know, we know...

[chorus]

we both keep playin where we don't belong
cuz every time you keep on turnin me on (on, on, on)
we both believe what we want to
but way down deep we know, we know, we know...
so we just keep on gettin it on
so we just keep on gettin it on
so we just keep on gettin it on
so we just keep on gettin it on
