Click, click Click, click Yeah Click, click DTP nigga!

I started with ten mack tens
And ten clips and ten pens
Got ten times with cha in the span of ten years
Bitch I'm ten times two on a scale of one to ten
I'll battle ten crews with the strength of ten men

At nine, I was into crime, sex, and drugs Pushin' an '89 Box Chevy sittin' on dubs Nine thugs all ski masks, black suited with gloves Break the imprinted chest with at least nine slugs

Man I ate eight clips with eight chicks Watching eight flicks You's 8-6 if you ate pussy with fake lips I figure eight when my mind goes in circles Did I do that or was it Mystikal and Erkul?

On to 7 Ak 47, so what? I got seven hoes stoppin' by at seven to f**k Then put seven in your chest seven days a week And add a foot for good measure you'll be seven feet deep

It goes 10-9-8-7-6-5-4
3-2-murder 1 lyrics at your door
These DTP niggas come ready for war
So don't start the f**king game
If you won't settle the score

I got six hoes distributing on six blocks It's blistering from cops tryna stop these rocks from distributing Six gun shots left One pint of Vodka before this pimp will hit It's street justice, now it's six hole in your casket

Give me a high five and I'll put that nine lower than your asophagus Then smack you so hard that you have to come with 2pacalypse Five stars, twenty rims, five cars I'd add more but I had to subtract one from five bars

I got four forty-fours on a rip on the floor For you niggas talkin' shit

I'm fixin' to show you what for I did four months in the bing instead of a hearst Now it's DTP for life, for better or worse

I f**k three best friends
Ran on all three the same game
In these streets I'm a murderer
I got three alias names
I'm three times insane
Three shots will cave your brain
On 3 fire and ready, cock back and aim

It goes 10-9-8-7-6-5-4 3-2-murder 1 lyrics at your door These DTP niggas come ready for war So don't start the f**king game If you won't settle the score

I'm packing two twenty-twos and twice the ammunition But at Friday the 13th What's up now superstition? I'm a two timer with a couple of twins Double jeopardy With a pair of two deuces in the two seater Benz

I got one motto get dough till your gone I got one main lady the rest of y'all is hoes I'm numero uno with one more before I go If you think I ain't the one bitch you too slow

And all you zero ass niggas ain't nothin' to me Because I chop up O's, move drough, and chop keys 0-6 is my clique along with PC Pretty Rick, Calil, V-Slim and Sean Dreaves

It goes 1 to 10 and 10 to 1 Ludacris, Fake Feeze, and that nigga I-Twain It goes 1 to 10 and 10 to 1 Ludacris, Fake Feeze, and that nigga I-Twain
