

Ludacris, Representin (ft. Kelly Rowland)

The way you put it down in between the sheets
Is like no other girl
You done take it a whole another level of freakiness
When you blow my mind
To the point where all these other women
Kinda feeling like it's old days, yeah
So I better go in, then I better come speed it
And I admit that I'm feeling a little pressure
When you're telling me I better come get it
But I'm the man for the job
Can't nobody do it quite like I do
And the same go for you
We a match made in heaven
I'ma stand right by you
Why you saying?

Just wanna keep all your attention baby
Yeah, alright, alright, alright, hey
It turns me on to know I turn you on, yeah
Ok, ok, ok
And I love the way I drive you crazy
Yeah, alright, alright, alright, hey
Sit in the front row and watch me perform
You do that and you gonna learn ?
Get on that thang, represent
I'll be representing, representing
Watch me put it down

Put it down like ay,
Only know you can do it
Then I'ma hit everything I wanna gets?
You don't need to walk me through it
But you can talk me through
What I'm asking if it's mine
Cause I don't really wanna play
You just tryina see if you can break my heart
Your spine, I'm
So attracted, to the way you carry yourself
And keep your composes
You a lady in the street
But behind closed doors you're a soldier
But probably we'll never know
That's how you like it ha,
Bet that booty pack a mean punch
And I'ma spike it, huh

Just wanna keep all your attention baby
Yeah, alright, alright, alright, hey
It turns me on to know I turn you on, yeah
Ok, ok, ok
And I love the way I drive you crazy
Yeah, alright, alright, alright, hey
Sit in the front row and watch me perform
You do that and you gonna learn ?
Get on that thang, represent
I'll be representing, representing
Watch me put it down

You're incredible, edible, unforgettable
Body is so angelical, the rebel with a cause
Speaking in hypotheticals
Could I marry you if I wanted to
I'll take you how you coming
Just learn to live with your flaws

Even though it's not that ?
You give me that good?
And I walk around all day granted
My body and mind are gone
That day ? return to sunshine
You make me wanna call the crib
And say I'm never coming home, luda!

Just wanna keep all your attention baby
Yeah, alright, alright, alright, hey
It turns me on to know I turn you on, yeah
Ok, ok, ok
And I love the way I drive you crazy
Yeah, alright, alright, alright, hey
Sit in the front row and watch me perform
You do that and you gonna learn ?
Get on that thang, represent
I'll be representing, representing
Watch me put it down.
