

# Luis Fonsi, Sola (English Version)

I like the way that you look when you're lookin' at me, at me  
And how our bodies can say everything that we think, we think  
You're telling me everything with your eyes  
'Cause you can feel that you're already mine  
You wanna ask, go ahead and I'll make you believe

you don't have to be sola  
you don't have to be here alone  
and if you wanna slow down  
then slow down  
it's only los dos  
just tell me where to go and I'll follow your love  
been showin' up alone  
but we're leaving as one  
you don't have to be sola  
you don't have to be here alone  
you're with me /2x

can't look away  
feels like the moment is frozen and time is erased  
there's not a chance p  
or a reason my ,mind's gonna change the way I feel  
I am gonna show you how this lovi si real  
come on  
baby, I know what you want

you don't have to be sola  
you don't have to be here alone  
and if you wanna slow down  
then slow down  
it's only los dos  
just tell me where to go and I'll follow your love  
been showin' up alone  
but we're leaving as one  
you don't have to be sola  
you don't have to be here alone  
you're with me /2x

i wanna be with you until tomorrow morning comes  
I'll love you every night as long as I can be the one  
baby, let me be the one  
i wanna be with you until tomorrow morning comes  
I'll love you every night as long as I can be the one  
baby, let me be the one

you don't have to be sola  
you don't have to be here alone  
and if you wanna slow down  
then slow down  
it's only los dos  
just tell me where to go and I'll follow your love  
been showin' up alone  
but we're leaving as one  
you don't have to be sola  
you don't have to be here alone  
you're with me /2x
