

# LUIZE (LUĪZE), You To Hold Me (Łotwa - piosenka)

I don't know where the dead people go  
Are they demons or maybe they're ghosts?  
But all I can think is your lips on my cheeks  
And I want to scream

But you can't know all you're wanting to  
When someone goes your demons make it through  
All these demons make me think of you I thought I'm stronger  
Well maybe someday I will find someone who gives me more sense

But I just want you  
To hold me  
So I can make it through

You just have to be there by my side  
Or either I will lose my mind  
Well of course it is over  
And I will get stronger  
It hurts me so deeply

But you can't know all you're wanting to  
When someone goes your demons make it through  
All these demons make me think of you I thought I'm stronger  
Well maybe someday I will find someone who gives me more sense

But I just want you  
To hold me  
So I can make it through  
I can't breathe when you're not beside me  
I won't let you go  
I can fix all your demons but I don't want to see you go

But I just want you  
To hold me  
But I just want you  
To hold me  
So I can make it through  
To hold me  
So I can make it through
