

Luke Benward, Everyday Hero

[Verse 1]

So this is what it feels like to grow up.
i want some independence not to little not to much.
i can take some steps alone this time.
but you know that ill never ever leave you behind.

[Chorus]

oh i believe in who i am because of you,
oh you've been there to always help me through.
everyday and every way do what you do and what you say.
you'll never be replaced.
i hope you know
(i hope you know)
you're my everyday hero

[Verse 2]

i wonder if you think im letting go.
i might be but just believe i'll make it on my own.,
but i can see it in your eyes i see it all the time.
you've been cheering in the stands all of my life.

[repeat chorus]

[Bridge]

I dont have to look around to know you're there.
i take you with me every where.
because you've made a mark on my life.
all because you care.
your my everyday hero.

[repeat chorus]

so this is what it feels like to grow up...
