

# Luke Bryan, Spring Breakdown

It's been a real good run  
Playing out here in the sun  
Year after year, beer after beer  
I've watched this crowd grow  
I swear y'all don't know what ya mean to me  
It's been something to see  
I remember when we started this week long party  
And to think that it's over

It makes me wanna spring breakdown  
Just thinking about all our good times together  
And how we rocked this town  
And I wish it could last forever and ever  
Ohh but the sand runs out  
And we roll back home  
And just thinking bout how  
This is our last song  
I'm bout to spring breakdown

Next year I'll go through pictures  
Wishing I was down there with ya hanging out  
It'll kill me then, but I'm here right now  
So let's raise up our cups  
Can't throw 'em up high enough  
Let me buy you one last round  
Before I spring breakdown  
Just thinking about all our good times together  
Yea how we rocked this town  
And I wish it could last forever and ever  
But the sand runs out  
And we roll back home  
And just thinking bout how  
This is our last song  
I'm bout to spring breakdown

We made this sun tan city yea all of y'all's  
Sing-a-long so loud  
We took this beach town over  
Y'all don't know it might sound crazy  
But y'all gonna make me spring breakdown  
Just thinking about all our good times together  
And when we rocked this town  
And I wish it could last forever and ever  
Ohh but the sand runs out  
And we roll back home  
And just thinking bout how  
This is our last song  
I'm bout to spring breakdown  
Swear I'm bout to spring breakdown

Y'all up there on them shoulders  
The good and bad hangovers  
I'm bout to spring breakdown
