

# Luke Thompson, Say You'll Stay

Bite the bullet, try to run  
Watch the daylight come undone  
And say you'll stay  
I gotta, gotta hope, I gotta know  
Gotta leave this window open so you'll stay  
Come on and stay

Step inside the cool dim light  
Tell me that you'll stay tonight, you'll stay  
Would you climb inside and stay?

Say you'll stay with me tonight  
Say you'll hold me all the while  
Say you'll stay with me tonight  
Tonight, tonight, yeah

Ride the rhythm, feel the beat  
Watch the moonlight start to creep  
And say you'll stay  
Well that good old grapevine  
Always seems to find a way  
To say all the things I'm too afraid  
Would you come on up and stay

Look outside the window dear  
Dream of getting out of here, but stay  
Would you creep inside and stay, yeah

Say you'll stay with me tonight  
Say you'll hold me all the while  
Say you'll stay with me tonight  
Tonight, tonight

Stop trying not to feel this way  
Stop listening to what they say  
We've heard it all before  
Well not this time  
Cos I've heard it all before  
I'm not listening anymore  
Cos you still seem to bring me back to life  
Would you bring me back to life?  
Would you bring me back to life?  
Would you bring me back to life?

So say you'll stay  
Say you'll stay right here with me tonight  
Say you're gonna hold me til the morning light  
Say you'll say you'll stay with me tonight  
This time we can try to make it right (you know its right)  
This time say you'll stay with me tonight (oh, just stay tonight)  
This time we can try to make it right  
Say you'll stay, say you'll fight  
Say you'll be with me tonight  
Say you will, say we'll try  
Say you feel it, say you might  
Say you'll stay

Come on, come on, say you'll stay
