

Lullacry, Fire Within

Youre not even worth the finger I gave you
Step aside cause its too late to undo
Thanks a lot for all the pain and hurt
Happy endings dont mix with the real world

Cant kill me, Fire within

Overkill, stonedeath
I will make you pay
Grinding, smashing
I will drive you insane

I just wonder how you can be so goddamn naive
Youre being stupid beyond belief
Do not talk to me about the misery
You aint seen nothing yet, got more to give
