## Lullacry, I Don't Mind

Trapped inside this void of hopes and dreams I gave everything to you And you know that it's true

How can we keep this feeling when our love is gone I don't think that I have any faith left But I don't mind

Feeling guilty, but it's not me who gave it all away

How can we keep this feeling when our love is gone I don't think that I have any faith left

How can we keep this feeling when our love is gone I don't think that I have any faith left But I don't mind

I don't mind

Trapped inside this void of hopes and dreams I gave you everything And you know that it's true

But I don't mind

But I don't mind

How can we keep this feeling when our love is gone I don't think that I have any faith left

How can we keep this feeling when our love is gone I don't think that I have any faith left But I don't mind
