

Luna Halo, Beautiful

You're so beautiful
And it speaks of who you are
And it makes me want to get
To know you

You're so colorful
And it touches who I am
And it makes me wonder where
Your light comes from

I wish that I could say
It so good to know you
I wish that I could say
Its so good to know you

With light so blinding
Your love surrounds me
You speak so loudly
With what you haven't said
You haven't said (to me)

I want to know what makes you beautiful
I want to know the thing that makes you whole
I want to know what makes you beautiful
