

# Luna Halo, Forgiveness

It felt like rain  
That fell again  
Down on me  
It felt like rain  
That touched my face  
And I can't believe it  
Like rain  
I can't believe it  
No I can't believe it

The things You said  
Seem to find their way back into my head  
And I regret my ways  
You never left  
Remind me once again so I won't forget  
You're never far away

It felt like rain  
That said again  
That it's okay  
Pale like white  
I close my eyes  
'Cause I can't believe it

I can't believe it  
The way You forgive me
