

# Luna Halo, Medicate

I feel like I could float away  
Chasing something beautiful  
Forget about time and space  
'Cause I can't feel my head at all

You come, I'm numb  
And I love it but I hate it  
Because you go, and I know  
That I'm still intoxicated

I'm addicted to the pain  
There's got to be a better way to medicate.

I never thought I'd lose control  
But it seems to happen every time  
When the drugs are too powerful  
Here come the lows, here come the highs

You come, I'm numb  
And I love it but I hate it  
Because you go, and I know  
That I'm still intoxicated

I'm addicted to the pain  
A chemical straight to the brain to medicate.

Twisting and turning  
This spinning never ends.

You come, I'm numb  
And I love it but I hate it  
Because you go, and I know  
That I'm still intoxicated

I'm addicted to the pain  
There's got to be a better way to medicate.
