

# Luna Halo, Over The Edge

Yeah, yeah you're the one I've wanted  
My, my, I'm the one you need  
When, when will you give me something  
Say, say how it's gonna be  
So burn, burn baby with this passion  
Take, take what you want from me  
Hey, hey break it to me gently  
And give, give me a sweet release x2

Something is pushing  
Me over the edge  
You're taking over my head

Lifeline is finally slipping  
Grey sky's beneath my feet  
Sunlight is slowly fading  
Upon the love I thought would be

Something is pushing  
Me over the edge  
You're taking over my head
