

Luna, I Got Ya

You've been away for a while
Been so long since you smiled
It's just a matter time
I know what's written for you
Oh God if you only knew
Love's not always a crime
Hope's not travellin' backwards
Can never say, never say I told you so
Stars not burning in circles
I never wanna let you go
Bruises from danger
They'll fade like a stranger
When love keeps throwing you thunder
I got ya, I got ya
I lost myself as a friend
People made me pretend
Lies they knew where to burn
No matter who I will be
The choice has gotta be me
It's what we both deserve
Hope's not travellin' backwards
Can never say, never say I told you so
Stars not burning in circles
I never wanna let you go
Bruises from danger
They'll fade like a stranger
When love keeps throwing you thunder
I got ya, I got ya
I'll see you in places
And feel your romances
When life keeps pulling you under
I got ya, I got ya
Hi - I just called to ask how are you? How are doing? How you've been?
I wanted to tell you that
I miss you. I really do.
And I cannot wait to see you sometime. Maybe in the future. Or in the past.
And also. I wanted to tell you
I got ya.
