

Lunachicks, Bad Ass Bitch

Where alley cats creep in the night
And shadows slink 'round traffic lights
She cracks her knuckles

Well man and beast all run in shame
But they only have themselves to blame
Her strength finesse and beauty run together
Hoof and hand!

Her six-pack stomach and fists of burning fire
She's every man and woman, dog and cat burnin desire!

She's big and bad and she's not afraid to show it
She'll take you down like muthafuckin bullet oh yeah!
She'll slice you, dice you fillet and spice you
And don't think that she won't do it oh yeah!

Cuz she's bad and she ain't no fool for you
She's bad - bad ass!

She will cut you into threads
Fuck your ass up until you're dead
With her six-inch heels
Right between the eyes!

If looks could kill we'd all be dead
She'll kill you with her hands instead
While you're drooling at her cleavage
Oops! Now you're blind!

Her six-pack stomach and eyes all of fire
She'll crush you make you blush and set you on fire!

She's big and bad and she's not afraid to show it
She'll take you down like muthafuckin bullet oh yeah!
She'll slice you, dice you fillet and spice you
And don't think that she won't do it oh yeah!

Cuz she's bad and she ain't no fool for you
She's bad - bad ass!
