

# Lunachicks, Hope To Die

Never wanted to live like this  
Never understood why  
All my lfe nothing ever worked out  
Think I lived a lie  
Told him not to touch me again  
Said I was a liar  
Said I never did anything wrong  
But I knew that everything was wrong

Now I lying on a cot  
Staring at three walls  
The bars that separate me and the world  
Melt away the scars  
Can see why I should stay  
On this earth too long  
Noww I take off my bra  
And I sing this song

Cross my heart and hope to die  
Can go on I tell you why  
18 hours too late for me  
Now I hope to die with the 36C

Now I tell you why  
I was stopped for a speeding ticket  
I was so embarrassed  
i was a happy homeworker in my sheltered world  
All the shame forced me to kill and join the other girls  
Jane Russel and Marilyn will greet me  
Won mistreat me!

So I had to wrap the straps around his neck his neck his neck  
Underwires get tighter and tighter  
As his eyes get wider and wider  
You wouldn like me when I  
You wouldn like me when I  
You wouldn like me when I angry!

Cross my heart and hope to die  
Can go on I tell you why  
18 hours too late for me  
Now I hope to die with the 36C
