

Lunatica, How Did It Come To This

You left me broken
Torn up inside
And the sky has darkened
Like I'm buried alive
This scar won't stop to bleed
But I can't make a sound
Try to say what I feel
But nothing comes out
How did it come to this?
I'm trapped behind these walls
I got on air to breathe
It's like I'm under water
Can you hear me?
My silent scream
Can you hear me?
My silent scream
Try to reach the surface
But something pulls me down
And there's a voice within
Dying to come out
In the corners of my head
The silence is so loud
How did it come to this?
I'm trapped behind these walls
I got on air to breathe
It's like I'm under water
Can you hear me?
My silent scream
Can you hear me?
My silent scream
Calling for your
But I can't break through
Will I be rescued?
Before it's too late
How did it come to this?
I'm trapped behind these walls
I got on air to breathe
It's like I'm under water
Can you hear me?
My silent scream
Can you hear me?
My silent scream
