

# Lunic, Crash

how about that siren you hear screeching in your ear  
you gonna pretend you can't hear it?  
or the flashing lights that keep you up all night  
you gonna say you don't fear it?  
you're gonna crash and burn unless you turn around  
just turn around!

nothing makes sense anymore  
nothing makes any sense anymore  
but the pain makes you know you're alive  
least the pain makes you know you're alive  
you're alive... do you love yourself?  
you're alive...

how about the friends that run away they can't stay  
cause if they do you'll run them over  
on a path to destruction you defend your corruption  
it keeps them from getting close to you  
you're gonna crash and burn unless you turn around  
just turn around!

nothing makes sense anymore  
nothing makes any sense anymore  
but the pain makes you know you're alive  
least the pain makes you know you're alive  
you're alive... but you're losing yourself  
you're alive...?
