

# Lunik, Mastermind

You want me to be a fellow believer  
You want me to be part of a good majority  
But I never ever be your disciple

You want me to be a fellow believer  
You want me to be submissive, to be full of loyalty  
But I never ever agree

Mastermind set me free  
I cannot find any reason to agree  
With mastermind don't wanna be  
In mental custody

You want me to be a collaborator  
You want me to be thoughtless like a trimmer has to be  
But I'll never ever be your plaything

You want me to be a collaborator  
Fit into the rules of a good society  
But I'm sure I'll find a way to leave

"4 times:"  
Mastermind set me free  
I cannot find any reason to agree  
With mastermind don't wanna be  
In mental custody

Game Over
