

Lunik, Mastermind

You want me to be a fellow believer
You want me to be part of a good majority
But I never ever be your disciple

You want me to be a fellow believer
You want me to be submissive, to be full of loyalty
But I never ever agree

Mastermind set me free
I cannot find any reason to agree
With mastermind don't wanna be
In mental custody

You want me to be a collaborator
You want me to be thoughtless like a trimmer has to be
But I'll never ever be your plaything

You want me to be a collaborator
Fit into the rules of a good society
But Im sure Ill find a way to leave

"4 times:"
Mastermind set me free
I cannot find any reason to agree
With mastermind don't wanna be
In mental custody

Game Over
